Crimes Committed by the Yanji City State Security Group and Police Station Branches

(Clearwisdom.net) It has been verified that Yang Zhongfang, Song Yonghua, Piao Shihao, Liu Boyi, Hao Yingqiang, Chi Huiwen and other Falun Gong practitioners were persecuted to death due to torture by policemen at the Yanji City State Security Group and police station branches. Another group of more than twenty practitioners were illegally sentenced, and over ten practitioners were sent to forced labor camps.

On July 2, 2002, policemen from Jiangong Police Station beat practitioner Yang Zhongfang to death overnight under the orders of Yu Minghuan, the party secretary of Jiangong Police Station branch. Yang Zhongfang ran a deli business at Lihuayuan Market in Yanji City.

On August 21, 2002, Professor Piao Shihao from the Medical School of Yanbian University was tortured to death at Yanji City Detention Center.

The police from Yanji City State Security Group arrested practitioner Song Yonghua from Yanji City on November 28, 2001. Due to being tortured for a long period of time, Song Yonghua passed away at Helong City Detention Center on October 28, 2003.

Chi Huiwen was assaulted and persecuted by policemen from the Yannan Police Station branch (now Jiangong Police Station branch), and passed away on April 22, 2004, leaving a 6-year-old daughter behind.

Since 2001, many practitioners have been arrested by the Yanji City State Security Group and were sentenced without evidence of committing any crime. Simply for hanging Falun Gong banners and/or distributing truth-clarification materials, Jin Dejun, Hao Yingqiang (since persecuted to death), Xing Yuanjun, Guo Peijun, and other practitioners were sentenced from seven to nine years of imprisonment at Jilin Prison. They were tortured at the State Security Group with brutal methods after being arrested, and their cries of pain were heard throughout the detention center.

Many of the officers from the Chaoyang Police Station branch have been promoted to the city police station or city security bureau because of their "achievements" in persecuting Falun Gong. Liu Xinwen was promoted from an average police officer to the head of the Chaoyang Police Station branch during this period.

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. The practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

About Clearwisdom

Clearwisdom.net is the most authoritative source of information about the practice of Falun Gong and about the persecution of Falun Gong in China, reporting timely news and events happening inside China as well as from the more than 70 countries around the world where Falun Gong is practiced. Clearwisdom responsibly publishes the experiences and understandings of practitioners themselves, who submit the majority of the articles.

Practitioners Introduce Falun Dafa at the “Colors of Ostrava” Music Festival

(Clearwisdom.net) From July 20 and July 23, 2006, the annual “Colors of Ostrava” music festival took place at the Černá louka (Black Meadow) fairgrounds in Ostrava, Czech Republic. The event is attended by thousands of people every year and Falun Gong practitioners have used the opportunity to give detailed information about the persecution of Falun Gong, which has lasted for seven years. This year, practitioners also exposed the atrocity of organ harvesting from living practitioners in Chinese prisons

Informational banners, demonstrations of the exercises and calm meditation music drew the attention of the festival's visitors. People were shocked when they saw photographs of victims of torture. They joined in and signed the petition denouncing the organ harvesting and called for the immediate investigation of the persecution and of the situation in Chinese concentration camps. People spoke in support of Falun Gong: “What you people are doing is a

good thing. Good luck!" "I believe the persecution will soon be over, these terrible things must come to an end." "No one should treat people the way the Chinese Communist Party treats their fellow citizens." "Where can I put my signature?"

Several children came by to ask for leaflets and petitions so that they could distribute them to their friends and relatives and tell more people about the persecution. In this beautiful way they supported our activities.

Falun Dafa Saved My Sister's Life

(Clearwisdom.net) My second eldest sister is an honest, kind-hearted person. In 1997, I started to practice Falun Dafa. In 1999, the Chinese Communist Party (CCP) started to fabricate lies and stigmatize Falun Gong. I publicly supported Falun Gong and was unlawfully sentenced to three years in a forced labor camp. During that time, my second eldest sister was the only one who came to visit me regularly. Later, she developed cirrhosis and tuberculosis and was bedridden for more than half the year. The doctor told her family that she would live four months at most.

I went to see my sister after I was released and told her to recite in her heart: "Falun Dafa is good. Truthfulness-Compassion-Forbearance are good." Two days later, I went to visit her and saw that her spirits were much better. She told me happily: "When I recited 'Dafa is good,' I felt things turning around and around in my stomach. It was very comfortable. Teach me how to practice." I borrowed a copy of *Zhuan Falun* (the principal text of Falun Dafa) for her to read and taught her the exercises over the next ten days. Her condition improved markedly. Slowly, my sister's dose of Chinese herbal medicine soup decreased from several bowls a day to a small cup. In less than four months, she stopped taking medicine completely. It has been eight months now; her weight went from 66 lbs. to about 100 lbs., and her complexion is glowing. My sister always sighs with feeling: "I should have practiced Falun Dafa earlier!"

Swedish Newspaper Exposes the Chinese Communist Party's Crimes

(Clearwisdom.net) On July 27, 2006, the *Oriental Daily* newspaper in Kalmar, a city in southern Sweden, published an article on the Chinese Communist Party's (CCP) atrocity of harvesting organs from living Falun Gong practitioners. A re-enactment of the CCP's organ harvesting practices had been held on Borgholm Square the day before, to protest the CCP atrocities.

Photo in the *Oriental Daily* newspaper, reporting on the re-enactment of the CCP's atrocity of organ harvesting from living people.

Falun Gong practitioner Magnus Gustavsson said that the city of Kalmar has trade agreements with China, and so he believes that local politicians have a moral duty to criticize China's terrible human rights record.

At present, practitioners are telling the world about the atrocities of organ harvesting from living Falun Gong practitioners in China. One source of testimony is a doctor who had engaged in the actual organ harvesting. Organ harvesting from living people is also happening in Shandong Province, a province with friendly ties to Kalmar.
