An Update on Falun Dafa Worldwide

The Secret Sujiatun Concentration Camp

"Falun [Gong] practitioners are killed for their organs, which are sent off to various medical facilities. Organ sales is now a highly profitable business in China..."

(Clearwisdom.net) A former Chinese Communist Party (CCP) intelligence worker has revealed that in Shenyang City, Liaoning Province, near the Masanjia Labor Camp, Dabei Second Prison, and a brainwashing center located in the Huanggu District Police Department, there is another facility located in the Sujiatun District that is especially used to persecute Falun Dafa practitioners.

This source said that there are more than six thousand Falun Dafa practitioners detained here, including practitioners from the three Northeastern provinces and central China.

According to the source, "The interrogation techniques from Masanjia have been passed to all levels of the CCP political and judiciary organs. If Falun Dafa practitioners are sent to Sujiatun, though, they have no chance of coming out. What many people probably do not know is that the CCP political and judiciary departments in the Shenyang City area and the Yanbian Korean Autonomous Prefecture learned many things from North Korea."

"The CCP won't let a prisoner consume food forever. Then what are they doing? In the end, the Falun Dafa practitioners are killed for their organs, which are sent to various medical facilities. Currently, organ selling is a very profitable business in China. Many patients that died on the operating table have had their organs taken away. No one investigates it, and even doctors are involved in this trade. They cannot find enough bodies through executions, and no bodies are more readily available than those of [Falun Gong] practitioners to do this business."

This source further stated, "Someone told me all of the people who built Sujiatun camp were long term prisoners who did not know what they were building, and for what purpose. Why was a crematorium built and why are so many doctors housed there? The answer is something unimaginable. You must be clear that a cremator for bodies is different than a burner used for sanitation purposes. Each prison is normally equipped with a burner. But if someone dies, that is a big deal, and the body must be sent to a crematorium in the city. Why is there a crematorium inside the Sujiatun secret camp? Why do they need to burn bodies? Why do they need so many doctors?"

This insider said, "I feel a responsibility to expose the secret Sujiatun facility to the public."

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. The practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

Practitioner Mr. Yu Shujin Dies from Persecution

(Clearwisdom.net) Practitioner Mr. Yu Shujin of Yongji County, Jilin Province, was persecuted to death. On June 25, 2004, Mr. Yu was arrested and detained in Shulan Detention Center because he practices Falun Gong. The torture and abuse he endured led to the calcification of his liver, excess fluid building up in his abdomen, and heart trouble. In December 2004, Mr. Yu was sent to serve 12 years in Tiebei Prison, Changchun City, Jilin Province, where he continued to be tortured. To avoid responsibility for his death, the prison allowed Mr. Yu to go home on November 10, 2005, for medical treatment. He died on February 11, 2006.

The Feeling of Being Given a New Life

(Clearwisdom.net) I am 43 this year. On March 10, 2005, I was diagnosed with uterine cervical cancer. In despair, I did not know what to do. Considering the high hospital cost for surgery and treatment, I hesitated in taking a step towards receiving treatment despite my wish to be treated. I wondered, is it true that it was time for my life to end?

On July 19, 2005, my sister-in-law came to visit me and brought me some Falun Gong books and truth-clarification materials. She explained the truth of Falun Gong and the persecution. I already knew that the Chinese Communist Party (CCP) has been controlling and manipulating the lives and beliefs of people for many years, and that it has done all kinds of evil to the people living under its dictatorship.

What is Falun Gong? I thought, "All that the CCP opposes must be good," so I opened the book, *Zhuan Falun* [the principle text of Falun Gong]. As if I had obtained a treasure, I read through the entire book all at once. I felt it strange because usually when I read a book, my head feels dizzy and my eyes ache. But when I finished reading the entire book of *Zhuan Falun*, I didn't feel dizziness in my head or any aching in my eyes. This is truly a treasure! Right then, I realized that the CCP's persecution of Falun Gong and its not allowing people to believe in Truthfulness-Compassion-Forbearance is truly against the law of heaven.

Every day, I hold the book *Zhuan Falun* and read with joy. I have come to understand a lot more truths and have also found my path in life.

Several months passed by, and I fully recovered from my illness. My spirit has been uplifted and my face has a healthy glow. All of my friends were very surprised and asked me how I recovered from the illness. I told them that it was because of practicing Falun Gong. They all felt that Falun Gong is truly miraculous.

Los Angeles: Practitioners Create "Great Wall of Truth" in New Chinatown

(Clearwisdom.net) Over two thousand Falun Gong practitioners, volunteer workers from the "Quit the CCP" (Chinese Communist Party) Service Center, and China Human Rights activists from all over the world joined together for a grand parade in Los Angeles' Chinatown. They protested the persecution of Chinese people and supported the more than eight million Chinese who have quit the CCP. The parade was held on the morning of February 26, 2006. Around 2:00 p.m., Falun Gong practitioners moved to another Chinese community – Valley Boulevard, where they displayed banners and posters and practiced the exercises, forming a "Great Wall of Truth."
