## An Update on Falun Dafa Worldwide

VOLUME 2 ISSUE 24 JUNE 20, 2007

### CCP Methods of Controlling Overseas Chinese Communities and Infiltrating Mainstream Society

(Clearwisdom.net) On June 6, 2007, at a press conference in the Canadian Parliament, Mr. Chen Yonglin, former Chinese diplomat from the Sydney Consulate, exposed the Chinese Communist Party's (CCP) means of controlling Chinese communities and media outside of China. Their purpose is to infiltrate Western mainstream society and influence the overseas Chinese community through Chinese embassies and consulates. He also discussed the manner in which the CCP intimidates and seduces Western politicians to persecute Falun Gong and other dissidents.

Mr. Chen Yonglin

*Chen Yonglin pointed out that the Chinese Federation of Associations, the Confederation of Chinese Organizations, Peaceful Reunification Association, and other Chinese associations were actually set up and controlled by the CCP authorities.*

#### **The CCP places Falun Gong as top issue**

In the press conference, Mr. Chen said, "Chinese diplomacy is actually an extension of domestic policy. Now the CCP mainly deals with Falun Gong because there is a huge number of practitioners, who act unanimously because of their belief." The CCP spends sixty percent of its effort to deal with Falun Gong, and has gone so far as to set up a special group within embassies and consulates to persecute Falun Gong.

#### **Chinese community and media are used**

Mr. Chen said, "In Canada, an organization called the National Congress of Chinese Canadians, NCCC, is the top of the umbrella structure of Chinese intelligence activity. Also, most of the Chinese student associations in universities in Australia, the US, and Canada actually were set up by the Chinese Education Section and funded by the Chinese overseas mission."

#### **Influencing mainstream society and foreign politicians through various means including blackmail**

Mr. Chen gave an example of the blackmailing of an Australian Member of Parliament who was visiting China. The MP had sex with a girl under 16 in China. He was immediately detained, recorded and released without any publicity. Later, he actually worked hard and spoke on TV on public occasions for the Chinese government. Mr. Chen said in answer to a reporter's questions, "When the important delegations go to China, they are under strict surveillance and if necessary, the CCP will set some traps regardless of whether the delegations are from Australia or Canada."

### Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

## Spreading Falun Dafa in City of Sapporo, Hokkaido, Japan

(Clearwisdom.net) June 2, 2007 was a sunny day in the City of Sapporo, Hokkaido, Japan. Falun Gong practitioners held a rally and parade to spread Falun Dafa's message of Truthfulness-Compassion-Forbearance, and expose the Chinese Communist Party's nearly eight years of brutal persecution of Falun Gong. This was the first time that practitioners held such a large-scale activity introducing Falun Dafa and clarifying the facts in the City of Sapporo.

The coordinator of the Japan Falun Dafa Association pointed out that there was an incident in Kyushu where Falun Gong practitioners were denied participation in a festival celebration due to pressure exerted by the local Chinese Consulate.

## My Husband's Lung Tumors Disappeared After Three Months of Cultivation

(Clearwisdom.net) In mid-June 2006, my husband developed periodontitis (an infectious disease in the tooth socket) and developed a swollen and sore jaw, a severe cough, and a mild fever. From X-rays we discovered that both of his lungs had irregular tissue growths. The doctor suggested that we go to a larger hospital for a CAT scan. On June 30, we went to a well-known hospital in Beijing and it was determined that my husband's left lung had large tumors that were potentially cancerous, and his upper right lung had smaller tumors that needed to be watched.

He had the CAT scan on a Friday. The lab results reported that no cancerous cells were found in his phlegm. The next question was whether or not to have a biopsy. I explained to my husband that I didn't think the biopsy was needed; the important issue was how to remove the tumors. I suggested to my husband to rely on Falun Gong. I cited a few examples of people curing major illnesses by cultivating in Falun Dafa. Finally my husband agreed.

My husband began to practice Falun Gong at the end of June. He stopped his forty-year habit of smoking, and stopped drinking too. He made sure that he did the five exercises in the morning and in the evening every day. He began by meditating for half an hour each time and gradually increased to an hour. He concentrated on reading *Zhuan Falun* (the principal text of Falun Gong).

On the second day of his practice, the mild fever that had lasted for half a month went away, and the cough and phlegm were almost gone too. Two weeks later, his body-cleansing began. During the exercises, he felt pressure in his chest, and his throat was itchy. He coughed severely and spit up thick, black phlegm that sometimes had a trace of blood. This situation lasted for over 40 days.

Three months into his cultivation, I accompanied my husband to the hospital in Beijing to have an examination. After the X-ray was taken, the doctor compared the new film with the original and was astonished. He said, "It is truly peculiar. The tumors are all gone!?" For confirmation, we went to the first hospital and had another X-ray exam. The result from the doctor was the same: "The tumors are gone. The lungs are normal!"
